

SUMMER 2016

CHICAGOLAB

Scholarship Application

Applications are being accepted for scholarships to offset expenses related to travel for the ChicagoLAB program for summer 2016. Only students who have been accepted into the program are eligible for scholarship funding. The committee reserves the right to allocate the available funding as they see fit in one or more scholarship awards. Please fill out the information below and attach a brief statement of need and merit and return both in a combined PDF to Ivis Garcia Zambrana at zambrana@arch.utah.edu by 5pm on Friday, April 8th 2015. Selections will be announced on or prior to April 15th 2015.

Statement

Please attach a one-page written statement describing how the ChicagoLAB program will impact you and how you will be able to share the experiences and skills you will acquire in your future education and/or practice.

You might reference a past travel, professional, or educational experience that has shaped you as a student and the way you were able to share that knowledge with others or speak about what you think the impacts will be on your development as an architect/planner/designer by working on a collaborative research project within some of Chicago's top design firms. Lastly, you might discuss your financial need and how this scholarship would aid in your educational and professional pursuits.

Scholarships will be awarded based on financial need and/or merit. Scholarship amount will depend on grant funding.

Contact Ivis Garcia Zambrana at zambrana@arch.utah.edu or (801) 833-4073 with any questions.

Undergraduate Opportunities

1. **The Ivory Homes Capstone Initiative Fund** offers University of Utah undergraduate students enrolled in a Capstone course the opportunity to apply for up to \$1,000 of support for their Capstone project. Funds can be used for tools, materials, travel expenses, and other expenses* needed to support their projects.

Although applications are accepted on a rolling basis and can be submitted at anytime, we encourage you to submit an application by March 15, 2016.

2. **The Undergraduate Research Opportunities Program (UROP)** provides undergraduate students and faculty members the opportunity to work together on research or creative projects. UROP provides assistantships up to \$1,200 for any first-time student who assists with a faculty member's research or creative project, or who carries out a project of his or her own under the supervision of a faculty member. Students may apply for an assistantship any semester (summer included), and may be eligible for a one-semester renewal. UROP recipients are hired by the Office of Undergraduate Research and are paid \$10/hour for up to 120 hours of work during the semester. Application is due March 25, 2016.
