

Public Information

The Planning Accreditation Board requires this information be posted for the Master of City & Metropolitan Planning (MCMP) program.

Student Achievement

The MCMP core focuses on competencies, including technical literacy, ethical inquiry, inclusive community engagement, ecological thinking, and physical planning and design. Students further develop these professional competencies in elective courses and a community-based planning workshop. The professional project allows students to apply these planning and analytical skills to a practical planning issue in a real-world context. A committee of professors and planning practitioners scores each professional project. The scores below represent the average score for the students who completed professional projects in the spring of 2023:

Core Values: 4.46
Verbal Communication: 4.41
Graphic/Visualization Communication: 4.17
